

## AC-CA1

### Lockable Steel Enclosure with Power Supply

\*Access control components not included

#### DESCRIPTION

The AC-CA1 is a lockable steel enclosure manufactured by Altronix® designed to contain the ACS-2DR kit and up to three additional AC-2DE expansion boards. It includes a power supply, tamper switch, removable backplane with standoffs, and ten conduit knockouts along the sides and the back.

The included Altronix eFlow6NB UL listed power supply provides a selectable 12V DC or 24V DC output. Additional features include fire alarm disconnect, over voltage protection, low power disconnect, and relay outputs for supervision.

#### SPECIFICATIONS

##### Power Supply

**Input:** 120V AC 60Hz  
**Output:** 12/24V DC, 6A

**Material:** Steel

**Weight:** 11.8 Lbs

**UL Listings:** UL 294  
ULC S319-05

**Temperature:** 32°~120°F (0°~49°C)

##### Dimensions:

**Enclosure** 18" H x 14-1/2" W x 4-9/16" D  
**Knockouts** 1-1/8" and 2" diameter
